

## Company Announcement

To all current and prospective clients,

In our continual effort to increase the services offered to our clients Consulting and Field Services is pleased to announce the creation of a NACE Coatings Division. I am sure many of you are familiar with Alec Angus, owner of Integra Inspection Group, LLC with headquarters in Enumclaw, WA. Alec has made the decision to dissolve his company and come to CFS as the Manager of the newly created NACE Coatings Division. It is with great pride and excitement that we welcome Alec Angus to the CFS family.

Alec brings 33 plus years of experience in the coatings industry both as a manufacturer and a contractor in industrial and marine applications. He is very experienced with coatings assessments and failure analysis as well as project management. The NACE Coatings Division offers inspection, assessment, failure analysis, specification writing and technical coating assistance.

The NACE Coatings Division will continue to provide knowledgeable, honest and ethical coating project inspection to the Industrial and Marine market. Our goal is to always represent our clients as an independent entity providing the best unbiased service to each of them.

Alec has a long history of leading successful projects with Major Oil Companies, Public Utility Departments, Regional Water Authorities, DOT Bridge Work, US Navy and the Army Corp of Engineers. All of these services coupled with experience allow CFS to become a premiere industry choice for all of your coating needs.

Please feel free to contact Alec at [alecangus@cfsinspectionsservices.com](mailto:alecangus@cfsinspectionsservices.com) or (253)820-4168 to welcome him or discuss upcoming coating project work.
